VICTORIAN PRODUCTION STATISTICS

MONTHLY BULLETIN: No. 4

March, 1951.

This Bulletin, issued by the Commonwealth Statistician shows the monthly factory production in Victoria of certain commodities. For the purpose of the accompanying statistics a "factory" is defined as an industrial establishment in which four or more hands are employed or in which power other than hand is used. Monthly averages for the years 1938-39, 1947-48, 1948-49 and 1949-50 and monthly production for the latest six months (October 1950 to March, 1951) are shown.

Many of the items included here are shown in greater detail in other publications of the Bureau.

The Bulletin is published as near as possible to the beginning of each month and figures of the production of each of the commodities listed are given up to the latest available month. For each commodity the Authority responsible for the present collection is indicated alongside the title. Figures up to 1948-49 inclusive are taken from the Government Statistician's annual factory returns wherever possible. It should be noted that in some cases annual returns are accepted from factories for periods other than those ending on June 30th each Year.

The scope of the bulletin will be widened from time to time to include new information as it becomes available.

The following symbols are used in this bulletin -

.. Not available.

- Nil or less than half the final digit normally shown.

* Figure revised.

A blank space in a column of figures means that figures for the Month concerned are not yet available.
